

ICD-10-CM OPHTHALMOLOGY 2015

Quick Reference Guide

SYMPTOMS

Blurred Vision (368.8)	H53.8
Contusion of eyeball and orbital tissues (921.3)	
right eye	
initial encounter.....	S05.11XA
subsequent encounter.....	S05.11XD
sequela.....	S05.11XS
left eye	
initial encounter.....	S05.12XA
subsequent encounter.....	S05.12XD
sequela.....	S05.12XS
Diplopia (368.2)	H53.2
Discharge, Eye (379.93)	H57.8
Dry eye syndrome (375.15)	
right lacrimal gland.....	H04.121
left lacrimal gland.....	H04.122
bilateral lacrimal glands.....	H04.123
Dizziness and giddiness (780.4)	R42
Encounter for examination of eyes and vision (V72.0)	
without abnormal findings.....	Z01.00
with abnormal findings.....	Z01.01
Floaters, vitreous (379.24)	
right eye.....	H43.391
left eye.....	H43.392
bilateral.....	H43.393
Foreign body on external eye, part unspecified (930.9)	
right eye	
initial encounter.....	T15.91XA
subsequent encounter.....	T15.91XD
sequela.....	T15.91XS
left eye	
initial encounter.....	T15.92XA
subsequent encounter.....	T15.92XD
sequela.....	T15.92XS
Headache	
not otherwise specified (NOS) (784.0)	
vascular headache, not elsewhere classified.....	G44.1
headache.....	R51
tension-type (307.81)	
chronic	
intractable.....	G44.221
not intractable.....	G44.229
episodic	
intractable.....	G44.211
not intractable.....	G44.219
unspecified	
intractable.....	G44.201
not intractable.....	G44.209
migraine	
classical	
not intractable (346.xx)	
with status migrainosus.....	G43.101
without status migrainosus.....	G43.109
intractable	
with status migrainosus.....	G43.111
without status migrainosus.....	G43.119

ophthalmoplegic (346.2)	
not intractable.....	G43.B0
intractable.....	G43.B1
retinal, not intractable (346.00)	
with status migrainosus.....	G43.801
without status migrainosus.....	G43.809
Photopsia (368.15)	H53.19
Redness of eye (379.93)	H57.8
Swelling or mass of eye (379.92)	H57.8

CATARACT/LENS

After-cataract, obscuring vision (366.53)	
right eye.....	H26.491
left eye.....	H26.492
bilateral.....	H26.493
Aphakia (acquired) (379.31)	
right eye.....	H27.01
left eye.....	H27.02
bilateral.....	H27.03

CATARACT

age-related (senile)	
combined forms	
right eye.....	H25.811
left eye.....	H25.812
bilateral.....	H25.813
cortical (366.15)	
right eye.....	H25.011
left eye.....	H25.012
bilateral.....	H25.013
hypermature (Morgagnian type) (366.18)	
right eye.....	H25.21
left eye.....	H25.22
bilateral.....	H25.23
nuclear (366.16)	
right eye.....	H25.11
left eye.....	H25.12
bilateral.....	H25.13
mature (366.17).....	H25.89
posterior subcapsular (366.14)	
right eye.....	H25.041
left eye.....	H25.042
bilateral.....	H25.043
congenital (743.3*).....	Q12.0
traumatic, total (366.22)	
right eye.....	H26.131
left eye.....	H26.132
bilateral.....	H26.133
Dislocated (subluxed) lens (379.32)	
right eye.....	H27.111
left eye.....	H27.112
bilateral.....	H27.113
Pseudophakia (V43.1)	Z96.1

CONJUNCTIVA**Conjunctivitis**

acute

atopic (allergic) (372.05)	
right eye.....	H10.11
left eye.....	H10.12
bilateral.....	H10.13
follicular (372.02)	
right eye.....	H10.011
left eye.....	H10.012
bilateral.....	H10.013
toxic (chemical) (372.06)	
right eye.....	H10.211
left eye.....	H10.212
bilateral.....	H10.213
unspecified (372.00)	
right eye.....	H10.31
left eye.....	H10.32
bilateral.....	H10.33

chronic

allergic (372.14).....	H10.45
giant papillary, (372.14)	
right eye.....	H10.411
left eye.....	H10.412
bilateral.....	H10.413
simple (372.11)	
right eye.....	H10.421
left eye.....	H10.422
bilateral.....	H10.423
follicular (372.12)	
right eye.....	H10.431
left eye.....	H10.432
bilateral.....	H10.433
unspecified (372.10)	
right eye.....	H10.401
left eye.....	H10.402
bilateral.....	H10.403
mucopurulent, other (372.03)	
right eye.....	H10.021
left eye.....	H10.022
bilateral.....	H10.023
vernal (372.13).....	H10.44

Foreign body, conjunctiva (930.1)

right eye

initial.....	T15.11XA
subsequent.....	T15.11XD
sequela.....	T15.11XS

left eye

initial.....	T15.12XA
subsequent.....	T15.12XD
sequela.....	T15.12XS

Hemorrhage, (sub)conjunctival (372.72)

right eye.....	H11.31
left eye.....	H11.32
bilateral.....	H11.33

Pinguecula (372.51)

right eye.....	H11.151
left eye.....	H11.152
bilateral.....	H11.153

Pingueculitis (372.34)

right eye.....	H10.811
left eye.....	H10.812
bilateral.....	H10.813

CORNEA**Abrasion, corneal without foreign body (918.1)**

right eye

initial.....	S05.01XA
subsequent.....	S05.01XD
sequela.....	S05.01XS

left eye

initial.....	S05.02XA
subsequent.....	S05.02XD
sequela.....	S05.02XS

Bullous keratopathy (371.23)

right eye.....	H18.11
left eye.....	H18.12
bilateral.....	H18.13

Dry eye

keratoconjunctivitis sicca, not specified as Sjogren's (370.33)

right eye.....	H16.221
left eye.....	H16.222
bilateral.....	H16.223

sicca syndrome (Sjogren's syndrome) (710.2)

unspecified.....	M35.00
with keratoconjunctivitis.....	M35.01

unspecified (375.15)

right lacrimal gland.....	H04.121
left lacrimal gland.....	H04.122
bilateral lacrimal glands.....	H04.123

Edema, corneal, secondary (371.22)

right eye.....	H18.231
left eye.....	H18.232
bilateral.....	H18.233

Endothelial corneal dystrophy (Fuchs') (371.57).....H18.51**Foreign body, corneal (930.0)**

right eye

initial.....	T15.01XA
subsequent.....	T15.01XD
sequela.....	T15.01XS

left eye

initial.....	T15.02XA
subsequent.....	T15.02XD
sequela.....	T15.02XS

Guttata (371.57).....H18.51**Keratitis**

chemical (940.4)

right eye

initial.....	T26.11XA
subsequent.....	T26.11XD
sequela.....	T26.11XS

left eye

initial.....	T26.12XA
subsequent.....	T26.12XD
sequela.....	T26.12XS

dendritic (H.simplex) (054.42).....B00.52

exposure (keratoconjunctivitis) (370.34)

right eye.....	H16.211
left eye.....	H16.212
bilateral.....	H16.213

filamentary (370.23)

right eye.....	H16.121
left eye.....	H16.122
bilateral.....	H16.123

interstitial (diffuse) (370.52)

right eye.....	H16.321
left eye.....	H16.322
bilateral.....	H16.323

punctate (Thygeson's (370.21)	
right eye.....	H16.141
left eye.....	H16.142
bilateral.....	H16.143
Keratoconus, stable (371.61)	
right eye.....	H18.611
left eye.....	H18.612
bilateral.....	H18.613
Keratopathy, band (371.43)	
right eye.....	H18.421
left eye.....	H18.422
bilateral.....	H18.423
Pannus, corneal (370.62)	
right eye.....	H16.421
left eye.....	H16.422
bilateral.....	H16.423
Pterygium	
central (372.43)	
right eye.....	H11.021
left eye.....	H11.022
bilateral.....	H11.023
peripheral, progressive (372.42)	
right eye.....	H11.051
left eye.....	H11.052
bilateral.....	H11.053
peripheral, stationary (372.41)	
right eye.....	H11.041
left eye.....	H11.042
bilateral.....	H11.043
recurrent (372.45)	
right eye.....	H11.061
left eye.....	H11.062
bilateral.....	H11.063
Recurrent erosion (371.42)	
right eye.....	H18.831
left eye.....	H18.832
bilateral.....	H18.833
Transplant, corneal (graft)	
rejection (996.89).....	T86.840
failure (996.89).....	T86.841
infection (996.69).....	T86.842
other complications of corneal transplant (996.79).....	T86.848
Ulcer, corneal	
central (370.03)	
right eye.....	H16.011
left eye.....	H16.012
bilateral.....	H16.013
marginal (370.01)	
right eye.....	H16.041
left eye.....	H16.042
bilateral.....	H16.043

EYELIDS/LACRIMAL

Abscess of eyelid (373.13)

right	
upper eyelid.....	H00.031
lower eyelid.....	H00.032
left	
upper eyelid.....	H00.034
lower eyelid.....	H00.035

Blepharitis, seborrheic/squamous

squamous (373.02)

right	
upper eyelid.....	H01.021
lower eyelid.....	H01.022
left	
upper eyelid.....	H01.024
lower eyelid.....	H01.025
ulcerative (373.01)	
right	
upper eyelid.....	H01.011
lower eyelid.....	H01.012
left	
upper eyelid.....	H01.014
lower eyelid.....	H01.015

Blepharochalasis, pseudoptosis (374.34)

right	
upper eyelid.....	H02.31
lower eyelid.....	H02.32
left	
upper eyelid.....	H02.34
lower eyelid.....	H02.35

Chalazion (373.2)

right	
upper eyelid.....	H00.11
lower eyelid.....	H00.12
left	
upper eyelid.....	H00.14
lower eyelid.....	H00.15

Dermatochalasis (374.87)

right	
upper eyelid.....	H02.831
lower eyelid.....	H02.832
left	
upper eyelid.....	H02.834
lower eyelid.....	H02.835

Ectropion

cicatrical (374.14)	
right	
upper eyelid.....	H02.111
lower eyelid.....	H02.112
left	
upper eyelid.....	H02.114
lower eyelid.....	H02.115
mechanical (374.12)	
right	
upper eyelid.....	H02.121
lower eyelid.....	H02.122
left	
upper eyelid.....	H02.124
lower eyelid.....	H02.125
senile (374.11)	
right	
upper eyelid.....	H02.131
lower eyelid.....	H02.132
left	
upper eyelid.....	H02.134
lower eyelid.....	H02.135
spastic (374.13)	
right	
upper eyelid.....	H02.141
lower eyelid.....	H02.142
left	
upper eyelid.....	H02.144
lower eyelid.....	H02.145

Entropion

cicatricial (374.04)		
right	upper eyelid.....	H02.011
	lower eyelid.....	H02.012
left	upper eyelid.....	H02.014
	lower eyelid.....	H02.015
mechanical (374.02)		
right	upper eyelid.....	H02.021
	lower eyelid.....	H02.022
left	upper eyelid.....	H02.024
	lower eyelid.....	H02.025
senile (374.01)		
right	upper eyelid.....	H02.031
	lower eyelid.....	H02.032
left	upper eyelid.....	H02.034
	lower eyelid.....	H02.035
spastic (374.03)		
right	upper eyelid.....	H02.041
	lower eyelid.....	H02.042
left	upper eyelid.....	H02.044
	lower eyelid.....	H02.045

Epiphora (tearing)

excess production of tears (375.21)		
right lacrimal gland.....		H04.211
left lacrimal gland.....		H04.212
bilateral lacrimal glands.....		H04.213
insufficient drain of tears (375.22)		
right lacrimal gland.....		H04.221
left lacrimal gland.....		H04.222
bilateral lacrimal glands.....		H04.223

Hordeolum

externum (stye) (373.11)		
right	upper eyelid.....	H00.011
	lower eyelid.....	H00.012
left	upper eyelid.....	H00.014
	lower eyelid.....	H00.015
internum (373.12)		
right	upper eyelid.....	H00.021
	lower eyelid.....	H00.022
left	upper eyelid.....	H00.024
	lower eyelid.....	H00.025

Meibomian gland congestion (374.89).....H02.89

Nasolacrimal duct obstruction

acquired (375.56)		
right.....		H04.551
left.....		H04.552
bilateral.....		H04.553
neonatal (375.55)		
right.....		H04.531
left.....		H04.532
bilateral.....		H04.533

Papilloma, squamous (216.1)

right eyelid.....	D23.11
left eyelid.....	D23.12

Ptosis

congenital (743.61).....	Q10.0
mechanical (374.33)	
right eyelid.....	H02.411
left eyelid.....	H02.412
bilateral eyelids.....	H02.413
myogenic (374.32)	
right eyelid.....	H02.421
left eyelid.....	H02.422
bilateral eyelids.....	H02.423
paralytic (374.31)	
right eyelid.....	H02.431
left eyelid.....	H02.432
bilateral eyelids.....	H02.433

Punctal stenosis (375.52)

right eyelid.....	H04.561
left eyelid.....	H04.562
bilateral eyelids.....	H04.563

Skin tag (701.9).....L91.8

Trichiasis, without entropion (374.05)

right		
	upper eyelid.....	H02.051
	lower eyelid.....	H02.052
left		
	upper eyelid.....	H02.054
	lower eyelid.....	H02.055

GLAUCOMA**Angle-closure glaucoma**

acute (365.22)		
	right eye.....	H40.211
	left eye.....	H40.212
	bilateral.....	H40.213
chronic (365.23)		
	One of the following 7th characters is to be assigned to code H40.22 - to designate the stage of glaucoma:	
	0 - stage unspecified	
	1 - mild stage	
	2 - moderate stage	
	3 - severe stage	
	4 - indeterminate stage	
	right eye.....	H40.221
	left eye.....	H40.222
	biateral.....	H40.223
intermittent (365.21)		
	right eye.....	H40.231
	left eye.....	H40.232
	biateral.....	H40.233

Aqueous misdirection (malignant glaucoma) (365.83)

right eye.....	H40.831
left eye.....	H40.832
biateral.....	H40.833

Congenital glaucoma (743.21).....Q15.0

Glaucoma secondary to eye inflammation (365.62)

One of the following 7th characters is to be assigned to code H40.4 - to designate the stage of glaucoma:	
0 - stage unspecified	
1 - mild stage	
2 - moderate stage	
3 - severe stage	
4 - indeterminate stage	

right eye.....H40.41X
left eye.....H40.42X
bilateral.....H40.43X

Glaucoma associated with vascular disorders (365.63).....H40.89

Glaucoma associated with trauma (365.65)

One of the following 7th characters is to be assigned to code

H40.3 - to designate the stage of glaucoma:

- 0 - stage unspecified
- 1 - mild stage
- 2 - moderate stage
- 3 - severe stage
- 4 - indeterminate stage

right eye.....H40.31X
left eye.....H40.32X
bilateralH40.33X

Low tension, normal pressure (365.12)

One of the following 7th characters is to be assigned to code

H40.12 - to designate the stage of glaucoma

- 0 - stage unspecified
- 1 - mild stage
- 2 - moderate stage
- 3 - severe stage
- 4 - indeterminate stage

right eye.....H40.121
left eye.....H40.122
bilateralH40.123

Ocular Hypertension (365.04)

right eye.....H40.051
left eye.....H40.052
bilateral.....H40.053

Glaucoma suspect

open angle with borderline findings (365.01)

low risk

right eye.....H40.011
left eye.....H40.012
bilateral.....H40.013

high risk

right eye.....H40.021
left eye.....H40.022
bilateral.....H40.023

anatomical narrow angle (365.02)

right eye.....H40.031
left eye.....H40.032
bilateral.....H40.033

Steroid responder (365.03)

right eye.....H40.041
left eye.....H40.042
bilateral.....H40.043

Phacolytic glaucoma (365.51)

One of the following 7th characters is to be assigned to code

in subcategory H40.5 - to designate the stage of glaucoma

- 0 - stage unspecified
- 1 - mild stage
- 2 - moderate stage
- 3 - severe stage
- 4 - indeterminate stage

right eye.....H40.51X
left eye.....H40.52X
bilateralH40.53X

Pigmentary glaucoma (365.13)

One of the following 7th characters is to be assigned to code

H40.13 - to designate the stage of glaucoma

- 0 - stage unspecified
- 1 - mild stage
- 2 - moderate stage
- 3 - severe stage
- 4 - indeterminate stage

right eye.....H40.131
left eye.....H40.132
bilateralH40.133

Plateau iris syndrome (post-iridectomy) (365.23).....H21.82

Primary open-angle (POAG) (365.11)H40.11X

One of the following 7th characters is to be assigned to code

H40.11 - to designate the stage of glaucoma:

- 0 - stage unspecified
- 1 - mild stage
- 2 - moderate stage
- 3 - severe stage
- 4 - indeterminate stage

Pseudoexfoliation glaucoma (365.52)

One of the following 7th characters is to be assigned to code

H40.14 - to designate the stage of glaucoma:

- 0 - stage unspecified
- 1 - mild stage
- 2 - moderate stage
- 3 - severe stage
- 4 - indeterminate stage

right eye.....H40.141
left eye.....H40.142
bilateralH40.143

Steroid induced glaucoma (365.31)

One of the following 7th characters is to be assigned to code

H40.6 - to designate the stage of glaucoma:

- 0 - stage unspecified
- 1 - mild stage
- 2 - moderate stage
- 3 - severe stage
- 4 - indeterminate stage

right eye.....H40.61X
left eye.....H40.62X
bilateralH40.63X

IRIS

Angle recession, chamber angle (364.77)

right eye.....H21.551
left eye.....H21.552
bilateralH21.553

Floppy iris syndrome (IFIS) (364.81).....H21.81

HypHEMA

non-traumatic (364.41)

right eye.....H21..01
left eye.....H21.02
bilateralH21.03

traumatic (contusion of the eyeball) (921.3)

right eye

initial.....S05.11XA
subsequent.....S05.11XD
sequela.....S05.11XS

left eye

initial.....S05.12XA
subsequent.....S05.12XD
sequela.....S05.12XS

Iridodialysis (364.76)	
right eye.....	H21.531
left eye.....	H21.532
bilateral.....	H21.533

Iris bombe (pupillary membrane) (364.74)	
right eye.....	H21.41
left eye.....	H21.42
bilateral.....	H21.43

Iritis, iridocyclitis, acute	
primary (364.01)	
right eye.....	H20.011
left eye.....	H20.012
bilateral.....	H20.013
recurrent (364.02)	
right eye.....	H20.021
left eye.....	H20.022
bilateral.....	H20.023

Plateau iris syndrome (post-iridectomy) (364.82).....H21.82

Rubeosis iridis (neovascularization) (364.42)	
right eye.....	H21.1X1
left eye.....	H21.1X2
bilateral.....	H21.1X3

Synechia, posterior (364.71)	
right eye.....	H21.541
left eye.....	H21.542
bilateral.....	H21.543

Synechia, peripheral anterior (goniosynechia) (364.73)	
right eye.....	H21.521
left eye.....	H21.522
bilateral.....	H21.523

OPTIC NERVE

Drusen of the optic nerve (377.21)	
right eye.....	H47.321
left eye.....	H47.322
bilateral.....	H47.323

Ischemic optic neuropathy (AION) (377.41)	
right eye.....	H47.011
left eye.....	H47.012
bilateral.....	H47.013

Optic atrophy	
primary (377.11)	
right eye.....	H47.211
left eye.....	H47.212
bilateral.....	H47.213
partial (377.15)	
right eye.....	H47.291
left eye.....	H47.292
bilateral.....	H47.293

Optic neuritis (papillitis) (377.31)	
right eye.....	H46.01
left eye.....	H46.02
bilateral.....	H46.03

Papilledema, intracranial pressure (377.01).....H47.11

Retrolubar neuritis (377.32)	
right eye.....	H46.11
left eye.....	H46.12
bilateral.....	H46.13

RETINA/VITREOUS

Asteroid hyalitis (crystalline deposits) (379.22)	
right eye.....	H43.21
left eye.....	H43.22
bilateral.....	H43.23

Central serous (chorio) rtinopathy (362.41)	
right eye.....	H35.711
left eye.....	H35.712
bilateral.....	H35.713

Cotton wool spots (362.83).....H35.81

Cystoid macular edema (following cataract surgery) (362.53)	
right eye.....	H59.031
left eye.....	H59.032
bilateral.....	H59.033

Detachment, retinal	
partial, giant tear (361.03)	
right eye.....	H33.031
left eye.....	H33.032
bilateral.....	H33.033
partial, multiple defect (361.02)	
right eye.....	H33.021
left eye.....	H33.022
bilateral.....	H33.023
partial, single defect (361.01)	
right eye.....	H33.011
left eye.....	H33.012
bilateral.....	H33.013
total, recent (361.05)	
right eye.....	H33.051
left eye.....	H33.052
bilateral.....	H33.053
tractional (361.81)	
right eye.....	H33.41
left eye.....	H33.42
bilateral.....	H33.43

Diabetic retinopathy (diabetes mellitus)	
background, with unspecified retinopathy (362.01, 362.03)	
Type 1	
with macular edema.....	E10.311
without macular edema.....	E10.319
Type 2	
with macular edema.....	E11.311
without macular edema.....	E11.319
nonproliferative	
mild (362.04)	
Type 1	
with macular edema.....	E10.321
without macular edema.....	E10.329
Type 2	
with macular edema.....	E11.321
without macular edema.....	E11.329
Other specified diabetes mellitus	
with macular edema.....	E13.321
without macular edema.....	E13.329
moderate (362.05)	
Type 1	
with macular edema.....	E10.331
without macular edema.....	E10.339
Type 2	
with macular edema.....	E11.331
without macular edema.....	E11.339
Other specified diabetes mellitus	
with macular edema.....	E13.331
without macular edema.....	E13.339

severe (362.06)	
Type 1	
with macular edema.....	E10.341
without macula edema.....	E10.349
Type 2	
with macular edema.....	E11.341
without macular edema.....	E11.349
Other specified diabetes mellitus	
with macular edema.....	E13.341
without macular edema.....	E13.349
proliferative (362.02)	
Type 1	
with macular edema.....	E10.351
without macular edema.....	E10.359
Type 2	
with macular edema.....	E11.351
without macula edema.....	E11.359
Other specified diabetes mellitus	
with macular edema.....	E13.351
without macular edema.....	E13.359

Diabetic macular edema (diabetes with macular edema) (362.07)	
Type 1	
nonproliferative retinopathy	
mild.....	E10.321
moderate.....	E10.331
severe.....	E10.341
proliferative retinopathy.....	E10.351
Type 2	
nonproliferative retinopathy	
mild.....	E11.321
moderate.....	E11.331
severe.....	E11.341
proliferative retinopathy.....	E11.351
Other specified diabetes mellitus	
nonproliferative retinopathy	
mild.....	E13.321
moderate.....	E13.331
severe.....	E13.351
proliferative	E13.351

Edema, retinal (362.83).....H35.81

Epi-retinal membrane (puckering of macula) (362.56)	
right eye.....	H35.371
left eye.....	H35.372
bilateral.....	H35.373

Exudates, retinal (362.83).....H35.89

Hemorrhage, retinal (362.81)	
right eye.....	H35.61
left eye.....	H35.62
bilateral.....	H35.63

Lattice degeneration (362.63)	
right eye.....	H35.411
left eye.....	H35.412
bilateral.....	H35.413

Macular degeneration	
dry (362.51).....	H35.31
wet (362.52).....	H35.32

Macular drusen (362.57)	
right eye.....	H35.361
left eye.....	H35.362
bilateral.....	H35.363

Macular hole, cyst, or pseudohole (362.54)	
right eye.....	H35.341
left eye.....	H35.342
bilateral.....	H35.343

Macular pucker (preretinal fibrosis) (362.56)	
right eye.....	H35.371
left eye.....	H35.372
bilateral.....	H35.373

Melanoma (malignant neoplasm), choroidal (190.6)	
right choroid.....	C69.31
left choroid.....	C69.32

Neovascularization, retinal, subretinal (362.16)	
right eye.....	H35.051
left eye.....	H35.052
bilateral.....	H35.053

Nevus, choroidal (benign neoplasm) (224.6)	
right choroid.....	D31.31
left choroid.....	D31.32

Occlusion	
branch retinal artery (362.32)	
right eye.....	H34.231
left eye.....	H34.232
bilateral.....	H34.233
branch retinal vein (362.36)	
right eye.....	H34.831
left eye.....	H34.832
bilateral.....	H34.833
central retinal artery (362.31)	
right eye.....	H34.11
left eye.....	H34.12
bilateral.....	H34.13
central retinal vein (362.35)	
right eye.....	H34.811
left eye.....	H34.812
bilateral.....	H34.813
partial retinal arterial (362.33)	
right eye.....	H34.211
left eye.....	H34.212
bilateral.....	H34.213

Retinopathy, hypertensive (362.11)	
right eye.....	H35.031
left eye.....	H35.032
bilateral.....	H35.033

Tear, retinal	
horseshoe, without detachment (361.32)	
right eye.....	H33.311
left eye.....	H33.312
bilateral.....	H33.313
multiple tears, without detachment (361.33)	
right eye.....	H33.331
left eye.....	H33.332
bilateral.....	H33.323
round hole, without detachment (361.31)	
right eye.....	H33.321
left eye.....	H33.322
bilateral.....	H33.323

Vitreous	
detachment/degeneration (379.21)	
right eye.....	H43.811
left eye.....	H43.812
bilateral.....	H43.813
floaters (379.24)	
right eye.....	H43.391
left eye.....	H43.392
bilateral.....	H43.393
hemorrhage (379.23)	
right eye.....	H43.11
left eye.....	H43.12
bilateral.....	H43.13

STRABISMUS/EYE MOVEMENTS**3rd (oculomotor) nerve palsy (378.51) or (378.52)**

right eye.....H49.01
 left eye.....H49.02
 bilateral.....H49.03

4th (trochlear) nerve palsy (378.53)

right eye.....H49.11
 left eye.....H49.12
 bilateral.....H49.13

6th (abducent) nerve palsy (378.54)

right eye.....H49.21
 left eye.....H49.22
 bilateral.....H49.23

Esophoria (378.41).....H50.51**Esotropia**

alternating (378.05).....H50.05
 intermittent
 alternating.....H50.32
 monocular (378.21)
 right eye.....H50.311
 left eye.....H50.312
 monocular (378.01)
 right eye.....H50.011
 left eye.....H50.012

Exophoria (378.42).....H50.52**Exotropia**

alternating (378.15).....H50.15
 intermittent, alternating (378.24).....H50.34
 monocular (378.11)
 right eye.....H50.111
 left eye.....H50.112
 intermittent, monocular (378.23)
 right eye.....H50.331
 left eye.....H50.332

Hypertropia, hypotropia, vertical strabismus (378.31) or (378.32)

right eye.....H50.21
 left eye.....H50.22

Nystagmus (379.56)

congenital.....H55.01
 other forms.....H55.09

VISION/REFRACTION**Amblyopia**

deprivation (368.02)
 right eye.....H53.011
 left eye.....H53.012
 bilateral.....H53.013
 refractive (368.03)
 right eye.....H53.021
 left eye.....H53.022
 bilateral.....H53.023
 strabismus (suppression) (368.01)
 right eye.....H53.031
 left eye.....H53.032
 bilateral.....H53.033

Astigmatism, regular (367.21)

right eye.....H52.221
 left eye.....H52.222
 bilateral.....H52.223

Hyperopia (hypermetropia) (367.0)

right eye.....H52.01
 left eye.....H52.02
 bilateral.....H52.03

Myopia

myopia (367.1)
 right eye.....H52.11
 left eye.....H52.12
 bilateral.....H52.13
 malignant (high) (degenerative) (360.21)
 right eye.....H44.21
 left eye.....H44.22
 bilateral.....H44.23

Presbyopia (367.4).....H52.4**Visual discomfort, asthenopia, photophobia (368.13)**

right eye.....H53.141
 left eye.....H53.142
 bilateral.....H53.143

Visual disturbance

psychophysical (368.16).....H53.16
 subjective (368.10).....H53.19

Visual field defect

arcuate/sector defect (368.43)
 right eye.....H53.431
 left eye.....H53.432
 bilateral.....H53.433
 central/paracentral defect (368.41)
 right eye.....H53.411
 left eye.....H53.412
 bilateral.....H53.413
 constriction (contraction), generalized (368.45)
 right eye.....H53.481
 left eye.....H53.482
 bilateral.....H53.483
 homonymous bilateral (368.46)
 right side.....H53.461
 left side.....H53.462
 heteronymous bilateral defects (368.47).....H53.47
 other localized defect (368.44)
 right eye.....H53.451
 left eye.....H53.452
 bilateral.....H53.453

Visual loss

sudden (368.11)
 right eye.....H53.131
 left eye.....H53.132
 bilateral.....H53.133
 transient (368.12)
 right eye.....H53.121
 left eye.....H53.122
 bilateral.....H53.123

MISCELLANEOUS

Bell's palsy (7th nerve) (351.0).....G51.0

Diabetes mellitus

without complications

Type 1 (250.01).....E10.9

Type 2 (250.00).....E11.9

Other specified diabetes mellitus.....E13.9

Type 1, with ophthalmic manifestations (250.51)

with mild nonproliferative retinopathy

with macular edema.....E10.321

without macular edema.....E10.329

with moderate nonproliferate retinopathy

with macular edema.....E10.331

without macular edema.....E10.339

with severe nonproliferative retinopathy

with macular edema.....E10.341

without macular edema.....E10.349

with proliferate retinopathy

with macular edema.....E10.351

without macular edema.....E10.359

diabetic cataract.....E10.36

with other diabetic ophthalmic complication.....E10.39

Type 2, with ophthalmic manifestations (250.50)

with mild nonproliferate retinopathy

with macular edema.....E11.321

without macular edema.....E11.329

with moderate nonproliferate retinopathy

with macular edema.....E11.331

without macular edema.....E11.339

with severe nonproliferate retinopathy

with macular edema.....E11.341

without macular edema.....E11.349

with proliferate retinopathy

with macular edema.....E11.351

without macular edema.....E11.359

with diabetic cataract.....E11.36

with other diabetic ophthalmic complication.....E11.39

other specified diabetes, with ophthalmic manifestations

with mild nonproliferate retinopathy

with macular edema.....E13.321

without macular edema.....E13.329

with moderate nonproliferate retinopathy

with macular edema.....E13.331

without macular edema.....E13.339

with severe nonproliferative retinopathy

with macular edema.....E13.341

without macular edema.....E13.349

with proliferative diabetic retinopathy

with macular edema.....E13.351

without macular edema.....E13.359

with diabetic cataract.....E13.36

with other diabetic ophthalmic complication.....E13.39

TASS (toxic anterior segment syndrome) (998.7)

initial.....T81.69XA

subsequent.....T81.69XD

sequela.....T81.69XS

Wound leak, postoperative (998.6)

initial.....T81.83XA

subsequent.....T81.83XD
